Sterling

Along with an impressive portfolio of ISO management system consulting, training and certification services; we provide product certification services for CE, FSC, Organic etc. We will help you transform your business so that it responds quickly to everchanging levels of competition, customer expectation and market flux across the world. We already have a strong client base across Asia, Europe, the U.S.A., the U.K., Australia, UAE, Saudi Arabia and Africa.

We will work with you to rethink how your processes, people and information can be integrated across your company, reinventing your rigid, costly or under-productive processes and replacing them with flexible, scalable, productive and costeffective processes.

We do this by utilizing ISO 9001, ISO 45001, OHSAS 18001, ISO 17025, ISO 27001, HACCP ISO 22000, SA 8000 and other international management systems.

We provide solutions that change the way people work and the way organizations do business. In virtually every industry, from manufacturing to financial services, information technology to education, healthcare to trading, service to retail, Sterling International Consulting has been helping companies to leverage their resources by reducing their operating costs and increasing their productivity.

We provide a unique management system software MyEasyISO to automate and simplify your QHSE implementation.

We possess the domain expertise to understand the critical issues facing your business, and we offer proven modules and comprehensive services to streamline operations.

More importantly they are tailored to reduce costs and take your business to a new level of competitive advantage.

Let's Share Knowledge

MyEasy ISO

All the consultants work with a single passion

"Partnering the client organizations in their journey towards excellence and achieve sustainable competitive advantage."

Our consultants are

Seasoned professionals with unmatched technical, operational and management experience to help your company grow.

Our Team

The foundation upon which our team is created is based upon the premise that motivated people and long-standing relationships are the ultimate tools of success and creativity, energy, perseverance and loyalty are just as important as a platinum resume.

We have a team of highly qualified and experienced professionals with proven problem solving, consulting and analytical skills. Our Team consists of Domain Experts & Technical Specialists to provide world class consulting solutions to our clients.

When you need a

Champion

to bring in excellence,

We have a Team to do it!

The primary strength of our consultants is to partner the client organization to optimize resources & implement the improvement strategies successfully. An assignment begins with an accurate assessment of people, processes, performance and strategies.

Our consultants define competitive strengths, threats and opportunities to define performance gaps and growth potential. To assure successful implementation and competitive advantage, our consultants will develop execution plans and control plans for the management system under consideration.

Unique Bottom-Up consulting approach of our consultants ensures success of our consulting assignments. This approach ensures that improvement plans are accepted & practiced at all the levels of management.

We have an unmatched 100% success rate for all the projects and international certifications.

Irrespective of nature and size of the organization, our consultants with their easy to implement consulting approach make any of the management system certifications like ISO 9001, ISO 14001, ISO 27001, HACCP, ISO 17025, ISO 17020, ISO 45001 etc. look simple and easy to implement.

Sterling

Area of Expertise and Experience

Sterling International Consulting is one of the few management system certifications consulting organizations in the world having domain expertise and project implementation experience across the business domains and industry verticals.

Our strength lies in the company specific consulting solutions so that a small organization of 5 employees can implement any of the ISO standards with equal effectiveness as compared to a multi Locational multi product/service organization of 5000 or more employees.
